

1. Product type: Front Load washing machine
2. LG Model / Buyer Model: Refer to the model list on pages 2 & 3.
3. Applicable Serial No: 806KWxxx and later
4. Effective Date: 21 Aug, 2008

Subject: New hinge assembly and cabinet front panel are applied to all products

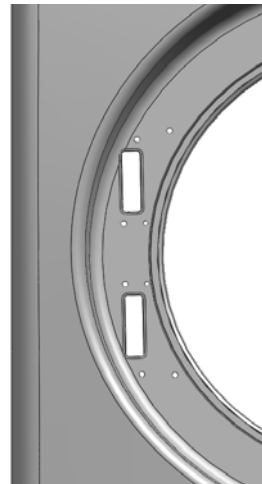

which were manufactured after June 1, 2008. **The size and shape of the new hinges was changed to increase the strength and durability of the hinges. Due to a change in the mounting screw configuration, the new hinges will not fit on the old front panel. If the front panel is to be replaced, a new style hinge will also need to be ordered.**

SVC Method

After June 1, 2008, the old hinge assembly and the old cabinet front panel will no longer be produced. This corresponds to serial numbers beginning 806KWxx and later.

1. If you only need to change the hinge assembly, the new style hinge assembly can be used as a direct replacement. The new style hinge assembly can be used with either the old or the new style front panel.

or

New style cabinet cover

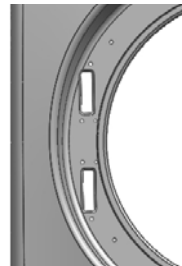

2. Because the old style hinge assembly does not properly fit the new style cabinet front panel, it will be necessary to replace the hinge assembly when replacing the cabinet front panel on products built prior to June 1, 2008.
