Old (No version on S/N)	New (Version 01 on S/N)
	

Issue

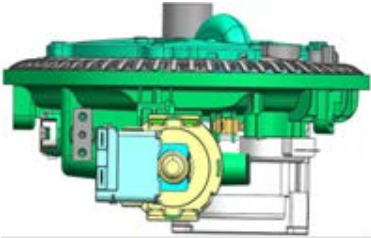

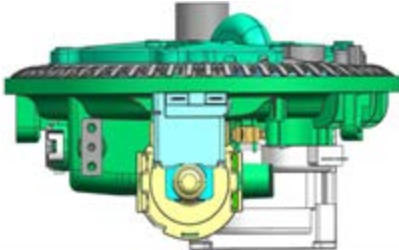

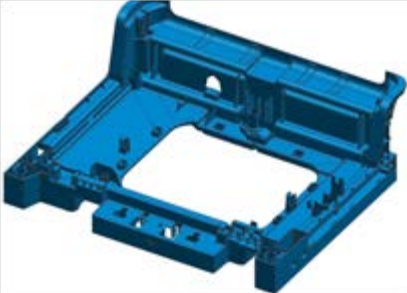

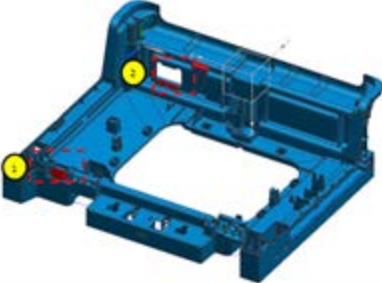

Parts which are related to water supply and drainage were changed to resolve water leakage and drain problems. New versions of the dishwashers (Ver 01) with the new parts were put into production in December, 2016 and January, 2017.

Several of the new parts are not compatible with the old model. All new versions of these dishwashers have 01 after the model number on the Model Number/Serial Number plate. Old versions do not. See above. Please make sure you order parts for the correct version. See the tables below for the parts and part numbers by version.
